

This room contains one projector, a built-in PC, DVD player, VGA connection for laptops and other devices, and a document camera. The equipment in this room is controlled by a button panel at the instructor station.

Projector On

Press the ON button once and wait 90 seconds for the projector to power up.

The projector will display the input currently selected on the panel.

Projector Off

Press the OFF button once. The projector will shut down after about 2 minutes.

Please turn the projector off before leaving the room. Sign out of the PC, but do not turn it off.

Use the PC

1. Move the mouse or press a keyboard key to wake the PC. If nothing displays on the monitor:
 - a. Check if the monitor power is on.
 - b. Check if the PC power is on.
2. Select **PC** on the button panel.
3. Login with your VIU credentials.
4. Logout when finished.

Connect your own device

This room contains a VGA cable for laptop connections. The cable is shared with the document camera.

1. Ensure your device is powered on.
2. Detach the VGA cable from the document camera and connect the cable to your device.
 - a. If you require audio, connect the 3.5mm (headphone) audio cable.
3. Select **Laptop** on the button panel.
4. Wait 2-3 seconds for the projector to switch images.
5. Re-connect the VGA cable to the document camera when done.

If the picture doesn't appear:

Windows: Press  + P to select a presentation option (usually Duplicate).

Mac: Go to System > Preferences > Display > Arrangement > Mirror.

If you still see a black screen, toggle the **Black Screen** button on the panel.

Use the document camera

1. Extend the camera arm to point in the desired direction.
2. Press the power button on the document camera.
3. Select **Laptop** on the button panel.
4. Press the power button **twice** to turn it off after use.
5. Return the camera arm to the resting position.

Use Zoom video conferencing

The document camera can be used as a camera and microphone for Zoom video conference calls.

1. Login to the PC.
2. Open Zoom and login.
3. Go to Settings.
4. In the video tab, confirm **Epson ELPDC21** as the camera.
 - a. You may need to adjust the rotation of the camera using the rotate button at the top right of the video preview.
5. In the audio tab, confirm **EPSON ELPDC21** as the microphone.
6. Confirm **Speakers/Headphone** is selected as the speaker.
7. Create or join a meeting.
